80Amp Rack Mount 1/1 Phase Hardwired Bypass Switch

Part No. APS80/11/R

Product Description

The Adept Power Solutions external manual bypass switch allows an uninterruptible power supply (UPS) system to be isolated for maintenance or replacement without any disruption to the critical load. This can help avoid costly downtime and maintenance costs.

Our range of external UPS bypass switches, manufactured in-house, have been designed to allow isolation of UPS standby systems for routine servicing, repair or removal without disrupting power to the critical load.

Built to the highest standards using proven components, the APS designed UPS bypass switches are available for single and three phase UPS systems with single or dual input power supplies.

The UPS bypass switch panels can be customised and tailored to specific requirements including the incorporation of distribution boards within the same enclosures.

Features

- Single phase input
- Single phase output
- Rating: 80Amp
- 5 year warranty

Specification

Manufacturer	*Adept Power Solutions*
Power (Va)	*15,000VA*
Input Phase	*Single*
Output Phase	*Single*
Switch Rating (Amps)	*80Amps*
Weight (Kgs)	*20Kg*
Depth (mm)	*350mm*
Width (mm)	*483mm*
Height (mm)	*3U*
Input Plugs	*Hardwired*
Output Sockets	*Hardwired*
