UPS Site Surveys

Part No.

Product Description

We offer free consultancy for new hard-wired UPS installations to ensure our professional recommendation matches your requirements and expectations. We work closely with you to ensure we have a clear understanding of your current situation and what Power Protection needs your organisation requires for both today and the future.

One of our highly trained technical specialists would be happy to attend your organisations premises to engage in a free site survey for new hard-wired UPS installation projects and perform an informal assessment. We will then provide you with expert advice on your current or potential future UPS requirements.

Adept Power has the internal technical and electrical skills to offer a full electrical and UPS installation service without the need to outsource works or for you to search for electrical contractors. Our UPS engineers are factory trained and our electricians are all 18th Edition trained with numerous other relevant electrical skill sets and qualifications.

Why choose APS for your Free Site Survey?

- Impartial Expert Advice.
- Factory Trained Engineers & Electricians.
- Safe Contractor Approved.
- ECA Approved.
- Service Partner Agreements with Major UPS Manufacturers.

Please note: *UPS consultancy works and technical information provided is the intellectual property of Adept Power Solutions Ltd and this information must not be passed to third parties under any circumstances without our explicit written permission otherwise charges will apply.*
