Chloride UPS Specialist

Part No.

Product Description

Adept Power Solutions are an expert in old legacy Emerson Chloride UPS and can provide servicing, maintenance and repair of your existing Chloride equipment.

For businesses around the world, the Emerson® brand stands for the ability to get big things done, through global engineering, technology, industry expertise and customer focus.

Emerson Network Power delivers a full range of Liebert uninterruptible power supplies (UPS) and power distribution units (PDU's), from individual data center solutions to integrated systems that keep network closets, computer rooms and data center infrastructure up and running.

Emerson provides uninterruptible power supplies and backup power systems for large data center design and for facility-wide protection for sensitive electronics, with true on-line systems also suitable for network servers, hubs, bridges, storage devices, routers and critical workstations. Adept Power recommends Emerson uninterruptible power supply systems for reliability and flexibility for standalone and rack environments. We are proud to have them as a UPS Partner.
