# 16Amp Wall Mount 1/1 Phase **Automatic Bypass Switch**

Part No. APS16/11/AW

### **Product Description**

The Adept Power Solutions external manual bypass switch allows an uninterruptible power supply (UPS) system to be isolated for maintenance or replacement without any disruption to the critical load. This can help avoid costly downtime and maintenance costs.

Our range of external UPS bypass switches, manufactured in-house, have been designed to allow isolation of UPS standby systems for routine servicing, repair or removal without disrupting power to the critical load. All APS bypass switches are now provided with a 5 year warranty as standard.

Built to the highest standards using proven components, the APS designed UPS bypass switches are available for single and three phase UPS systems with single or dual input power supplies.

The UPS bypass switch panels can be customised and tailored to specific requirements including the incorporation of distribution boards within the same enclosures.

#### **Features**

- · Auto Changeover
- Single Phase
- 2U Rack Mount
- 5 Year Warranty

## **Specification**

Manufacturer Adept Power Solutions

Power (VA) 3,000VA Input Phase Single **Output Phase** Single **Switch Rating (Amps)** 16Amps Weight (Kgs) 7Kg Depth (mm) 360mm Width (mm) 438mm Height (mm) 2U

Input Plugs 1 x 10Amp IEC
Output Sockets 4 x 10Amp IEC C13

Max Relay Transfer Time 15ms
